not dashboards.

piece.

PESHKASH / 01

01 / PLACE IT

Where interest begins.

Put Peshkash where people already look.

- + On a counter, table or storefront
- + On a product, artwork or package
- + On a card, invite, pass or handout

Beautiful solid-surface formats for hospitality, retail, services, events, makers and independent professionals.

02 / SHOW IT

One useful next step.

Send people to exactly what they came for.

- + Menu, booking or order
- + Portfolio, profile or contact
- + Details, care, story or authenticity

No explanation required. The printed cue and destination work as one clear invitation.

03 / KEEP IT WORKING

Current. Useful. Yours.

Change the destination, not the print.

- + Refresh what people see
- + Keep one stable printed identity
- + Understand what earns attention

Make the next step obvious.
