

An offering, made visible.

BRAND IDENTITY SYSTEM / VERSION 1.0 / AUGUST 2026

A premium digital offering for local business.

Peshkash means *an offering*. The identity joins a bookmark - something worth returning to - with a scan frame and an origami P. It feels crafted, warm and quietly technological.

● **WARM**

Human and culturally resonant, never clinical.

● **PREMIUM**

Restrained colour, deliberate spacing, crafted detail.

● **CLEAR**

A non-technical promise that is understood at a glance.

Three ideas, one recognisable P.

01 BOOKMARK

The vertical ribbon signals permanence and recall.

02 THREE-FACET FOLD

Bone, stone and taupe planes form the P bowl without a hollow centre.

03 SCAN CORNERS

Four precise L corners connect the mark to its QR-native function and always remain when the wordmark is absent.

Primary signatures

Use the scan-frame signature for brand moments. Use the no-scan signature where space is tight or the frame would compete with a live QR code.

Give the gesture room to breathe.

Clear space and minimum size

X = one bookmark-stem width

Primary lockup

Minimum: 180 px / 38 mm

Framed symbol

Minimum: 48 px / 12 mm

Micro icons

Use supplied 16-32 px exports

CLEAR SPACE

Keep at least 1x around the signature, where x equals the bookmark stem width. No text, borders or QR modules may enter this zone.

MINIMUM SIZE

Primary signature: 38 mm print / 180 px digital.
Framed symbol: 12 mm print / 48 px digital.
At 16-32 px, use supplied optimized icons.

Warm, analogue and unhurried.

Peshkash colour system

Near-black

#1A1410

Cream

#F5F2EE

Brand gold

#BD945A

Logo brass

#BB9057

Bone

#E8DBCE

Stone beige

#C5AF9D

Mushroom taupe

#8C7667

Muted text

#564C40

Primary contrast: near-black on cream, or white on near-black. Gold is an accent, not a text colour for long copy.

Character in the headline. Clarity everywhere else.

Rufina

DISPLAY / EDITORIAL MOMENTS

A warm serif for statements, campaign lines and high-emotion moments.

Urbanist

BODY / UI / INFORMATION

A clean sans for product interfaces, navigation, captions and practical copy.

The Peshkash wordmark is custom artwork. Never retype, typeset, stretch or recreate it with a script font. Always use the supplied SVG or PNG master.

Keep the identity composed.

YES / LIGHT

YES / DARK

- ✗ Do not rotate, skew or redraw the mark.
- ✗ Do not add outlines, glows, bevels or heavy shadows.
- ✗ Do not let a live QR code enter the logo clear-space area.

- ✗ Do not recolour individual facets outside the supplied palette.
- ✗ Do not place over busy photography without a solid holding shape.
- ✗ Do not use the P alone; retain the L-corner frame without the wordmark.

Built to live where customers look.

Direct. Warm. Obvious in hindsight.

Your shop window just became the internet.

If you're not scannable, you're invisible.

A QR is the cheapest marketing you'll ever buy.
